

# Curbside Recycling

PROGRAM

### Who receives curbside recycling?

The County provides residential curbside recycling collection for all residents.

### How is it paid for?

Recycling services are included and paid through your Solid Waste Assessment; therefore, with or without garbage service, recycling is picked up curbside at no additional cost to you. Indian River County encourages our Residents to Recycle.

### Do you have to have garbage collection in order to receive recyclable collection?

No. Even if you decide not to subscribe for residential garbage collection, you may put out recyclables curbside for collection, and you won't receive a bill for this service.

### I need more than 2 blue bins. May I have more?

You may put your recyclables in any open top container, excluding garbage cans.

Put bins within 5 feet of the curb on your collection day by 6:00 a.m. Call Treasure Coast Refuse (562-6620) or Waste Management (770-3179) to find out your collection day!

S.W.D.D., helping you *Think Green. Live Green.*

### Bin 1
